

# CLAIMS

1. A compound represented by formula (I)

- 5 wherein R represents a methyl group or an ethyl group, R<sup>1</sup> represents a hydrogen atom, a chlorine atom, a hydroxyl group, or a methoxy group, R<sup>2</sup> represents a hydroxyl group, or R<sup>1</sup> and R<sup>2</sup> taken together form an epoxy ring structure.
- 10 2. The compound according to claim 1, wherein in formula (I), R represents an ethyl group, and R<sup>1</sup> and R<sup>2</sup> taken together form an epoxy ring structure.
3. The compound according to claim 1, wherein in formula (I),  
15 R represents a methyl group, and R<sup>1</sup> and R<sup>2</sup> taken together form an epoxy ring structure.
4. The compound according to claim 1, wherein in formula (I),

R represents an ethyl group,  $R^1$  represents a chlorine atom, and  $R^2$  represents a hydroxyl group.

5. The compound according to claim 1, wherein in formula (I),

5 R represents a methyl group,  $R^1$  represents a chlorine atom, and  $R^2$  represents a hydroxyl group.

6. The compound according to claim 1, wherein in formula (I),

10 R represents an ethyl group,  $R^1$  represents a hydrogen atom, and  $R^2$  represents a hydroxyl group.

7. The compound according to claim 1, wherein in formula (I),  
R represents a methyl group,  $R^1$  represents a hydrogen atom, and  $R^2$  represents a hydroxyl group.

15

8. The compound according to claim 1, wherein in formula (I),  
R represents a methyl group,  $R^1$  represents a methoxy group, and  $R^2$  represents a hydroxyl group.

20 9. The compound according to claim 1, wherein in formula (I),  
R represents a methyl group, and  $R^1$  and  $R^2$  each represent a hydroxyl group.

10. A process for producing the compound according to claim 1,

characterized by:

cultivating a microorganism having the capability of producing the compound according to claim 1; and

recovering the compound according to claim 1 from the culture  
5 broth of the microorganism.

11. An *Aspergillus* sp. F-1491 (FERM BP-8288) strain having the capability of producing the compound according to claim 1.

10 12. An angiogenesis inhibitory agent containing as an active ingredient the compound according to claim 1.
